

CanDo Company Background

- Formed in 2008 as part of a much larger diagnostics company
- Specialized in OEM and Private Labeling diagnostics tools
- **In 2012, CARB mandates all class 4 thru 8 2007+ in California must have DPF, EGR & SCR Systems**
- Almost overnight, a new industry is born: Retrofitting of these systems to older trucks
- CARB has our HD Pro for evaluation and recommends it to these retrofitting companies
- **2013 ARB mandates all class 4-8 must have some form of On Board Diagnostics**
- The need for Diagnostics for Heavy Duty Truck and Off-highway applications skyrockets
- Our business takes off and CanDo Diagnostics, as its own entity, is born
- **In 2012, there were only 2 other HD Diagnostics companies = Our headstart is a Competitive Advantage due to no Right to Repair for HD/Off-highway**
- We now concentrate on HD, Off-highway and Passenger Car & Powersports Diagnostics
- Based in Los Angeles, CA, USA

CanDo
INTERNATIONAL, INC.

Now YOU can do diagnostics with CONFIDENCE!

The Wait is Over. Introducing the **HD Pro III**.

Introducing the **HD Pro III** our latest **all-in-one, do-it-all scan tool**, covering **class 4-8 commercial vehicles** and **off-highway machinery**, such as mining and farming equipment. The **HD Pro III** is a wired Android tablet, perfect for those in a budget, looking to perform bi-directional controls and change & set parameters, diagnose hydraulic systems, brake systems, and perform VGT calibrations and DPF resets/regeneration. What's even better is that it now comes with **Two years of Motor's FleetCross Service** - a premier repair information database accessible from within the **HD Pro III**. Two years of software updates and all cables and connectors are included.

2 Years Motor FleetCross | 2 Years Software Updates | Class 4-8 HD & Agri-Industrial

Full Engine/ Brakes/ Transmission/ BCM Coverage with
Bi-Directional Controls, Adaptations and Special Functions

All Inclusive!

The Wait is Over– Introducing the HD Pro III!!

MSRP \$3999.00

Recently Added!

- **ADAS Coverage: Detroit Assurance and Bendix Wingman**
- **Off-highway: CASE, New Holland, JCB and Liebherr**

Why people buy it:

- All-inclusive for everything from a Ford Ranger to Farming Equipment and Freightliner – at a very affordable price!
- Comes with 2 years of FleetCross (a \$3300 value)!
- Wired (some folks prefer it that way..)
- Fast boot-up and ease of use

What it does:

- Engine/Brakes/Transmission/Body Controls and more!
- Read&Clear Codes, View & Graph Live Data, Perform Special Functions (Change and Set Parameters, Program Turbos) and Bi-directional Controls (DPF Resets/Regens, Cutout Injectors, Cylinder Balance Tests)

Target Market:

- Repair facilities
- Dealerships
- Fleets
- Municipalities
- AG/Construction
- Individual Technicians
- Vocational Schools

Android Tablet 2 Years Software 2 Years FleetCross Service Remote Technician All Inclusive!

You Can't Get Here Overnight.

Introducing the **HD Pro Tab**: an open Android, Bluetooth wireless scan tool for Heavy Duty Truck and Agricultural & Industrial applications. **HD Pro Tab** is three years in the making, with software developed at the dealership level. This means OE-level functionality without the costly subscription. Coverage for F150, Freightliner and Farming Equipment – and everything in between – *all in one package.*

Over 60 Manufacturers Covered, including John Deere • Full Brake and Transmission Coverage • Set Parameters
Full DPF Reset/Regen • Full Bi-directional Controls • Injector Coding • Cylinder Cutout • Auto-ID all modules
One easy-to-use Interface • True IP65 Drop Test and Water Resistant Rating • 10.1" IPS High-Resolution Screen
Full Suite of Connectors (inc. CAT-9 and Benz Truck) • 2 Years Free Software

TPMS will be mandated for buses & trucks, its just a matter of time. Be ahead of the game with CanDo's **HD TPMS** Activation Tool.

The **CanDo HD TPMS** is an activation tool with functionalities specifically designed for the maintenance of trucks and buses. Read sensors in twin wheels and manage up to 22 wheels! The tool is compatible with today's leading truck and bus TPMS sensors and can be updated with new heavy transport vehicles as soon as they are introduced.

- Activates and reads OE sensors in seconds
- Check tire pressure to prevent under-inflation
- Check sensor battery levels to prevent sensor failure
- Display sensor ID, tire pressure and temperature, battery status and more!
- Identifies the sensor by vehicle and sensor reference, or simply scan all protocols to activate
- Compact to easily fit under the wheel arch
- Manage and store up to 22 wheels
- Frequent updates
- 3 years software included!

HDPROIII

- Wired Android 10" Tablet
- Class 4-8 and Off-highway
- Full Bi-directional Controls
- Change/Set Parameters
- 2 Years FleetCross Troubleshooter included!
- 2 Years Free Software
- All Cables and Connectors included

OHVPRO

- IP67 Wireless 8" Tablet
- Off-highway Equipment
- Generic and Diesel OBD
- Full Bi-directional Controls
- Change/Set Parameters
- Calibrate Hydraulics
- 2 Years Free Software
- All Cables and Connectors included

MLTPRO

- IP67 Wireless 8" Tablet
- Medium and Light Duty Truck including Jeep and Sprinter
- Full Bi-directional Controls
- Special Functions: Injector Programming, Module Recoding, DPF Reset/Regen and more!
- 2 Years Free Software
- All Cables and Connectors included

HDTPMS

- Activate/Read Sensors
- Check Tire Pressure
- Check Tire Temperature
- Display and Identify Sensors
- Manage up to 22 tires
- 3 years free software!

HDCODEII

- Activate/Read Sensors
- Check Tire Pressure
- Check Tire Temperature
- Display and Identify Sensors
- Manage up to 22 tires
- 3 years free software!

HDMOBILE

- Wireless Smart Device VCI
- Read/Clear Codes
- Performs DPF Reset/Regen: Detroit, Cummins, Isuzu, Mack and Volvo, International and Fuso
- New Data Logging Feature
- Lifetime free updates

www.candointl.com | 909-CanDo-11(226-3611)

Recently Added Coverage for: Bendix Wingman, Detroit Assurance, CASE IH, JCB & Liebherr

HD Pro Tab

- Voith Transmission
- New & Extensive John Deere Coverage w/ Search Function
- PLC Connector

HD Mobile

- Mack-Volvo DPF
- Isuzu DPF
- International DPF

HD Code II

- Isuzu DPF
- International DPF

Now YOU can do diagnostics with CONFIDENCE!

What's new with our HD Coverage?

Added Toyota, Honda and Nissan Pickup and ADAS (Wabco Bendix & Detroit Coverage!!

Mack/Volvo: Added VGT Calibration and Cylinder Balance Test

Cummins: Added Password Removal Function and Cylinder Cutout Test

Hino: Added SRS Coverage

Caterpillar: Added Injector Trim Calibration

Detroit: Added DPF Ash Mileage Reset

Paccar: Actuation test and Special Functions for PACCAR MX-13 PCI and EAS-3 systems, Activate the MX Engine Brake, Enable or Disable the engine idle shutdown timer, Install and Calibrate the VTG turbocharger actuator, Disable the DEF derate, Change injector codes, Reset common rail pressure release valve, Read CAL-ID and CVN, Activate air shutoff valve, Activate the fuel dosing valve, Activate the DEF pipe heaters, Activate the DEF pump heater, Activate the DEF tank heater valve, Activate the DEF reverting valve, Install a new DPF function, Install a cleaned DPF function.

John Deere: Added Search Function, Added TCU (Transmission Control Unit), ICC (Instrument Cluster Unit) and other J1939 Controllers

New Holland: New systems added: T6000 Series Tractor (with 16/17x16 Transmission) Tier3 for Read ECU Information, Read Fault Code, Erase Fault Code, Read Data Stream; 2. New systems added: Engine Type added MS6.2 system: Read ECU Information, Read Fault Code, Erase Fault Code, Read Data Stream.

Pro Tab

- Ease of Updates (one click via WiFi)
- Drop ability
- Remote Diagnostics Feature
- Show Extensive coverage
- Show Intuitive User Interface per Manufacturer
- Speed of Navigating through menus
- Show extensive bi-directional controls and special functions

MLT Pro

- Show coverage of Light Duty Trucks, Sprinter, and Medium Duty
- Show Bi-directional controls for Medium Duty (Ford and Dodge)
- Ease of use: No frills, just plug in and Diagnose!
- Ease of updates
- Drop ability

HD Mobile

- Show speed of launching App and navigating through menus
- Show extensive on and off-highway Caterpillar Coverage
- Perform CAT injector cutout test
- Show/Perform DPF reset or regen (Cummins, Detroit, FUSO, Volvo and International)
- Perform Read & Clear Codes
- Graph Live Data

HD Code II

- Show how robust the tool is and how it is easy to use/navigate
- Show extensive on and off-highway Caterpillar Coverage
- Perform CAT injector cutout test
- Show/Perform DPF reset or regen (Cummins, Detroit, FUSO and International)
- Perform Read & Clear Codes
- Graph Live Data

C-Pro

- Show ease of updates
- Show Remote Diagnostics function
- Show Extensive Coverage for Asian, Euro and N.American cars
- Show Special Functions for BMW, MINI, Mercedes, Ford and Toyota

Objection Handling

Questions to ask:

- **Do you perform Driveability Diagnostics? NO. We send to the dealer.** Tows start at \$600, Diagnostics fee averages \$200 per scan, Turbo Wastegate \$3500 per calibration!
- **What are you currently using? We use laptops with OE software or we use Snap-on.** The cost of an average laptop is between \$10-15K loaded with coverage like ours. Imagine how expensive it would be to update that laptop yearly! Or, what if it were dropped from the cab of a truck - what a pain it would be to replace! For Snap-on, it is around \$12K full loaded – and with only 4 updates per year! Imagine not having coverage for a particular truck or equipment and having to wait 3-4 months for an update – and hoping it is there! We can address coverage issues in as fast as 3 weeks!
- **Challenges with current equipment? Lack of Coverage, Lack of Capabilities, Cost to Update – How does the CanDo compare?** With a 2 year subscription right off the bat and our subscription based updates where you can update at anytime whenever there are new additions to software, we will surely have any gaps in coverage covered for your customer. MSRP for software update after the 2 years is \$1000USD – much less than the competition and it covers all manufacturers, class 4 thru 8, on and off-highway.
- **I work on every piece of equipment that comes through my door – what does your scan tool cover?** With most of our competitors having a separate module for either on-highway trucks or off-highway equipment, we . Our tool works on all diesel trucks, box trucks, buses, tractors, generators, sky lifts, Tier 4 with 9 pin.
- **I don't want to spend so much on a scan tool. I don't need all those added capabilities.** Not to worry – if you want to simply read & clear codes and still perform DPF resets and regens for most of the popular makes out there, the HD CODE II and HD MOBILE have you covered.

Truck Classifications

CFR 49. 2005-0653541gr

CLASS 1
6,000 lb & less

Minivan Utility van
Multi-purpose Full-size pickup

CLASS 5
16,001 to 19,500 lb

Bucket
City delivery Large walk-in

CLASS 2
6,001 to 10,000 lb

Minivan Utility van
Full-size pickup Step van

CLASS 6
19,501 to 26,000 lb

Beverage Single-axle van
School bus Rack

CLASS 3
10,001 to 14,000 lb

Walk-in Conventional van
City delivery

CLASS 7
26,001 to 33,000 lb

Refuse Furniture
City transit bus Medium conventional

CLASS 4
14,001 to 16,000 lb

Conventional van City delivery
Large walk-in

CLASS 8
33,001 lb & over

Dump Cement
Heavy conventional COE sleeper

WHY SELL HEAVY DUTY DIAGNOSTICS?

There are over 3.5 million professional truck drivers in the United States, according to estimates by the American Trucking Association.

✓ The Trucking industry KEEPS GROWING and there is a GROWING NEED for Diagnostics.

- As of Nov. 4, 2019, there were **over 32,000,000** registered commercial vehicles – NOT counting off-highway equipment.

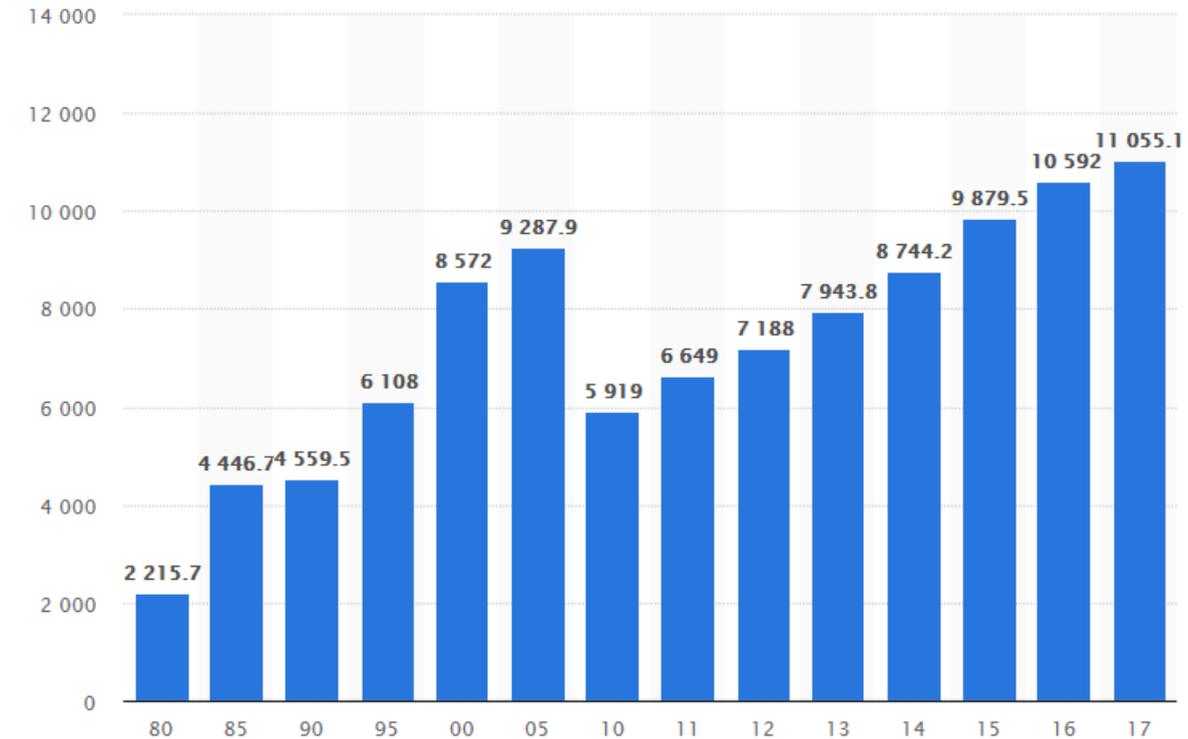

✓ 2012 California Air Resource Board mandates **that all 2007 and newer class 4-8 must have DPF and SCR systems** – even those delivering into California!

- Gives birth to DPF Retrofit Industry - Our business triples overnight.
- As of today, these states have followed suit: Arizona, Colorado, Connecticut, Delaware, Maine, Maryland, Massachusetts, New Jersey, New Mexico, Nevada, New York, Oregon, Pennsylvania, Rhode Island, Utah, Vermont, Washington, Wisconsin and Tennessee
- DPF Delete fines grow (VA truck company fined \$400K, CA fines \$2500 to individuals)

✓ 2012/2013 ARB Mandates all Class 4 thru 8 must have On Board Diagnostics inc. Off-highway (Tier 4)

✓ Limited Competition in Diagnostics due to No Right to Repair
Truck owners and Fleets are at the mercy of the OEM & Dealership.

US Class 4-8 Truck Sales x 1000 units

Steady increase Year over Year

What is a DPF on a diesel?

A diesel particulate filter (or DPF) is a device designed to remove **diesel** particulate matter or soot from the exhaust gas of a **diesel** engine.

What is DPF regeneration?

The DPF needs to be cleaned regularly, through a process called **regeneration**, either active, passive or forced **regeneration**, the accumulated soot is burnt off at high temperature (around 600° c) to leave only a residue of ash, effectively renewing or **regenerating** the filter.

Selective Catalytic Reduction (SCR) is an advanced active emissions control technology system that injects a liquid-reductant agent through a special catalyst into the exhaust stream of a **diesel engine**. The reductant source is usually automotive-grade urea, otherwise known as **Diesel Exhaust Fluid (DEF)**.
